These fees are for our regular services for enrolled and casual patients, and they may be subject to change over time. Extra fees apply for extended consultations, procedures, tests, injections, and medical supplies. Some services requested by patients are not funded, so fees will apply. Discounts may apply for holders of a Community Services Card or a High User Health Card.

*We reserve the right to charge a consult fee if a patient does not attend a booked appointment.*

Eligibility for publicly funded health and disability services in New Zealand must be proved by presentation of a passport, visa or other valid document. We will need to charge the non-resident rate until a patient is able to provide proof of eligibility.
